INDIAN COUNCIL OF AGRICULTURAL RESEARCH
NEW DELHI

Advisory Board

DR M. S. SWAMINATHAN
Director-General, Indian Council of Agricultural Research, and Secretary to the Government of India, Department of Agricultural Research and Education, New Delhi

DR K. S. BEDI
Retired Joint Director of Agriculture (Research and Education), Chandigarh

DR O. P. GAUTAM
Deputy Director-General (Education), Indian Council of Agricultural Research, New Delhi

DR A. R. GOPAL-AYENGAR
Emeritus Scientist, Bio-Medical Group, Bhabha Atomic Research Centre, and Adviser, Department of Atomic Energy, Trombay, Bombay

DR A. B. JOSHI
Vice-Chancellor, Mahatma Phule Krishi Vidyapeeth, Rahuri, Maharashtra

DR J. S. KANWAR
Associate Director, International Crops Research Institute for Semi-Arid Tropics, Begumpet, Hyderabad

DR S. K. MUKHERJEE
Vice-Chancellor, Calcutta University, Calcutta

DR SUKHDEV SINGH
Deputy Director-General (Crop Sciences), Indian Council of Agricultural Research, New Delhi

DR S. M. SIRCAR
Emeritus Scientist, Calcutta University, Calcutta

DR M. J. THIRUMALACHAR
Superintendent (Research), Hindustan Antibiotics Ltd, Pimpri, Poona.

SHRI P. L. JAISWAL
Chief Editor, Indian Council of Agricultural Research, New Delhi

Editor : S. N. TATA
Assistant Editor : R. S. GUPTA

CONTENTS

PAGE

Response of 'MCU 5' cotton to different irrigation schedules. N. GOPALASWAMY, T. A. PALANIAPPAN, N. S. LOGANATHAN and D. SIVASANKARAN .. 1

Size and shape of plots and blocks in field experiments with potato crop in the hills. B. S. BIST, V. P. MALHOTRA and P. R. SHREENATH .. 5

Physiological considerations of promising rice selections to suit the deltaic regions of Andhra Pradesh. K. BHAGAWAN DORA and B. VENKATESWARLU 9

Effect of different levels of soil moisture on growth, yield and some physiological aspects of nodulation in green-gram. A. K. VERMA and N. S. SUBBA RAO 11

Potential for yield and its attributes in dwarf wheat varieties as influenced by nitrogen fertilization. R. P. SINGH and R. G. ANDERSON 17

Effects of carbaryl application on maturity, yield and other quantitative characters of cotton. B. H. KATARKI and N. K. S. PRASAD .. 23

Evaluation of hydraulic characteristics influencing check-basin irrigation design. D. P. KATARIA and A. M. MICHAEL 27

Effects of Zn and P fertilizers on root cation-exchange capacity, yield and nutrient uptake of rice. K. N. TIWARI, A. N. PATHAK and KALU SINGH .. 33

Irrigation requirements of maize grown under fluctuating high water-table conditions. I. K. GIRDHAR, J. S. P. YADAV and R. K. RAJPUT .. 38

Feeding of bonnet macaque on coffee, orange, cardamom and rice. HAFEEZUR RAHAMAN 44

Chemical constituents of green pea and their relationships with some plant characters. S. P. JAISWAL, GURDEEP K UR, J. C. KUMAR, K. S. NANDPURI and J. C. THAKUR 47

Gene effects for grain gluten and hardness in 15 wheat crosses. HARI HAR RAM and J. P. SRIVASTAVA 52

Resistance to pink bollworm in cotton. R. A. AGARWAL, M. SINGH, K. N. KATIYAR and V. P. SINGH 57

Comparative studies on dormant and pre-bloom sprayings for the control of San Jose scale. C. L. DINABANDHOO and O. P. BHALLA 60

Evaluation of methods and sources of micronutrient application to wheat and maize. J. S. GREWAL and CHARAN SINGH 63

Note on the antibiosis factor of resistance to corn earworm in pubescent genotypes of soybean. N. PANDA and DAVID M. DAUGHERTY 68

Note on the effect of number and times of split applications of nitrogen on tiller productivity and yield in upland rice. CH. NARASINGA RAO and K. S. MURTY 72

Note on the chemical control of Bihar hairy-caterpillar. S. M. SINGHVI, A. N. VERMA and R. SINGH 74

Note on sugarbeet seed yield under different spacing and planting methods. R. N. KAW and A. A. MIR 76

PAGE

Note on the chemical control of *Myzus persicae* (Sulzer) on sugarbeet. J. P. CHAUDHARY and J. P. BHANOT 78
Note on secondary and micro-element contents of fertilizers and manures. C. L. ARORA, V. K. NAYYAR and N. S. RANDHAWA 80
Note on the isolation of bacterial gums and their influence on soil-aggregate stabilization. A. C. GAUR and R. V. SUBBA RAO 86
Note on the relative resistance of cowpea varieties to powdery-mildew. H. S. SOHI and R. D. RAWAL 89
Propagation of hybrid cotton through cuttings. M. N. SHEELAVANTAR, A. S. PRABHAKAR and S. V. PATIL 91
Effect of plant competition on growth and yield of tall and semi-dwarf varieties of wheat. APARNA KONAR and R. D. ASANA 93
Relative efficacy of weedicides in controlling the weeds of grain sorghum. S. P. SINGH, M. SINGH and H. SINGH 98
Radiation-induced genetic variability for yield and yield components of barley. R. K. MISHRA and K. DAS 101
Efficiency of water-soluble, citric acid-soluble and insoluble phosphate fertilizers for rice in different soils. P. A. SARANGAMATH, B. N. SHINDE and S. PATNAIK 106
Uptake of polyphosphates by soybean. C. P. GHONSIKAR and R. H. MILLER 112
Water management for potato crop in Simla hills. MUKHTAR SINGH, R. C. SHARMA, J. S. GREWAL and L. C. SIKKA 116
Physiological parameters for breeding for higher productivity in upland cotton. S. N. BHARDWAJ, MUNSHI SINGH and K. N. RUWALI 124
Effect of different crop rotations on the yield and quality of chewing tobacco. R. SINHA, K. D. SINGH, A. N. SINGH and P. S. UPADHYAY .. 128
Effect of puddling implements on percolation losses and water-use efficiency in rice field. N. K. TYAGI, N. ACHARYYA and P. C. MOHANTY .. 132
Effect of phosphate fertilization on yield and other characteristics of soybean in north Bihar. B. ROY and S. MISHRA 136
Persistence of carbaryl residues in and on okra fruits. B. P. SRIVASTAVA, L. N. DADHEECH, G. NATH and N. R. JAT 139
Pre- and post-harvest respiration pattern of 'Pusa Seedless' grape. M. M. RAO, R. M. PANDEY and R. N. SINGH 145
Response to potassium fertilization of three Punjab soils. THOMAS C. STILWELL, GURCHARAN S. SEKHON and TREVOR G. ARSCOTT 149
Effect of phorate and nitrogen on plant growth, seed yield and chemical composition of okra. M. S. SAIMBHI, S. P. JAISWAL, K. S. NANDPURI and GURDEEP KAUR 152
Breeding rice varieties with more protein. A. K. GHOSH and S. SAMPATH .. 156
Breeding for field resistance to gall-midge in rice. M. V. S. SASTRY and P. S. PRAKASA RAO 160

PAGE

Beneficial effects of crop combination of coconut and cacao. P. K. R. NAIR, RAMA VARMA, E. V. NELLIAT and K. V. A. BAVAPPA 165

Note on the control of turnip wilt for seed production in the Kulu Valley. S. GANGOPADHYAY and K. S. KAPOOR 172

Note on the influence of spacing and time of nitrogen application on the grain protein in rice. R. V. NAIR 175

Note on the performance of lentil varieties and germplasm cultures against *Uromyces fabae* (Pers.) de Bary. Y. L. NENE, J. KANNAIYAN and G. C. SAXENA 177

Note on the inheritance of susceptibility of pearlmillet to downy-mildew. R. APPADURAI, C. PARAMBARAMANI and U. S. NATARAJAN 179

Note on the evaluation of agricultural spray oil E 9267 for the control of rusts and powdery-mildew of wheat. SHEODHAN SINGH, S. K. SHARMA, S. K. NAYAR and L. B. GOEL 181

Effect of split application of nitrogen on tiller survival and yield in direct-seeded upland rice. CH. NARASINGA RAO and K. S. MURTY 183

Responses of 'Succary' and 'Balady' orange trees to foliar sprays of zinc and copper. MOHAMED ALI A. BACHA 189

Techniques for the establishment of pasture legumes in grasslands of *Heteropogon contortus* (Roem. & Schult.) Beauv. at Jhansi. K. A. SHANKARNARAYAN, P. M. DABADGHAO, P. RAI and RAVI KUMAR 194

Effect of soil and climatic conditions on yield and fibre properties of improved strains of upland cotton. A. K. ANTONY and E. KESAVAN KUTTY .. 199

Maternal effects for some yield components in brown-seeded Indian colza. J. R. SHARMA and O. P. JAIN 204

Thermal and photothermal units to predict wheat crop maturity. H. K. PANDE, S. LAHIRI and E. RAVINDRANATH 210

Effect of sulphur fertilization on the nitrogen metabolism in berseem. N. S. PASRICHA and N. S. RANDHAWA 213

Growth characteristics and nutrient levels of genetically related grain sorghum varieties resistant and susceptible to chlorosis. A. MUHSI and R. LANGSTON 219

Effect of seed bacterization with *Azotobacter chroococcum* on sorghum and wheat. C. L. SANORIA and W. V. B. SUNDARA RAO 224

Mineralization of controlled-release nitrogenous fertilizers. P. A. LIMAYE and V. K. LELEY 227

Note on the effect of insecticides on different strains of *Spodoptera littoralis* Boisd. in Egypt. A. S. A. SAAD, A. MADKOUR and A. EL-BAHRAWI .. 231

Note on the shedding of immature fruits in cashew. P. K. THANKAMMA PILLAI and G. B. PILLAI 233

Marketing and price formation of Virginia tobacco. R. D. SINGH .. 235

Suitability of upland cotton varieties to closer planting and higher yield. S. N. BHARDWAJ, MUNSHI SINGH and N. P. WANKHADE 239

PAGE

Soil moisture distribution as influenced by slopes and lengths of irrigation furrows. D. B. RANE and S. S. VANJARI 245
Characterization of the proteins from green-gram. G. L. SONI, A. S. NARANG and RATTAN SINGH 249
Interrelationships and diversity in Indian colza. I. J. ANAND, J. N. SINGH and P. P. KHANNA 253
Heterosis and combining ability in lentil. T. P. SINGH, K. B. SINGH and R. S. MALHOTRA 259
Effect of different tillage practices on water-use efficiency of pearl-millet and mustard under dry-farming conditions. M. C. OSWAL and C. DAKSHINAMURTI 264
Control of rose-ringed parakeet in Punjab. G. S. SIMWAT 269
Note on the dye level in lac resin. D. C. SRIVASTAVA, B. P. MEHRA and T. P. S. TEOTIA 272
Note on the laboratory evaluation of some systemic fungicides against cereal rusts. P. BAHADUR, SHEODHAN SINGH, V. C. SINHA, L. B. GOEL and S. K. SHARMA 274
Note on compatibility of DD-136 (*Neoaplectana dutkyi*), an insect parasitic nematode with some insecticides and fertilizers. P. S. PRAKASA RAO, P. K. DAS and GOURI PADHI 275
Note on heterosis in pea. L. S. SRIVASTAVA and S. C. P. SACHAN .. 278
Note on the effect of thinning stage and plant spacing on sorghum grain yield, yield attributes and water-use efficiency. B. MURALIMOHAN REDDY, E. RAVINDRANATH and J. S. QUICK 279
Note on the effects of insecticides on the incidence of sorghum mite, *Oligonychus indicus* (Tetranychidae : Acarina). A. H. SHAH, B. M. PATEL and V. J. VORA 281
Note on the chemical control of weeds in sweet-orange. J. S. JAWANDA, V. K. VIJ and J. N. SHARMA 282
Control of fig midge by endosulfan and its residues in and on fig fruits. B. P. SRIVASTAVA, M. C. MATHUR, T. S. KATHPAL and G. NATH 287
Effect of straw mulch on the performance of soybean. J. N. KAUL and H. S. SEKHON 291
Stability performance of some yield attributes in kodo-millet. N. K. DHAGAT, N. D. RAUT, U. GOSWAMI and R. C. JOSHI 293
Effect of different food plants on the growth and development of *Agrotis spinifera* Hubner. J. C. SHARMA and K. C. SHARMA 297
Analysis of gene effects and heterosis in certain productive traits in pea. HRIDAY KUMAR and K. DAS 301
Heritability and genetic advance of some quantitative characters in groundnut hybrids in the F_2 generation. G. J. PATRA 308
Genetic parameters and their implications in breeding high-yielding varieties of wheat. D. SHARMA, S. S. BHADOURIA and H. C. MALIK 311

PAGE

NPK contents of maize plant and associated weeds as affected by nitrogen levels. Y. H. EL-SHAFEY, H. EL-HATTAB and N. O. MONGED .. 316
Note on the effect of depth of irrigation on wheat. A. SINGH and RAJBANS DAYAL 321
Note on the variability of saturated acid compositions and glyceride structure patterns in fats from different locations of the kernel from coconuts. R. P. SINGH and A. R. S. KARTHA 323
Note on the relationship between grain yield and component characters in rice variety 'Supriya' C. GANGADHARAN and ARUN K. GHOSH .. 326
Note on detoxication of lindane by farmyard manure. A. C. GAUR, S. P. MAGU, K. V. SADASIVAM, R. S. MATHUR and S. K. KAVIMANDAN .. 329
Note on the effect of removal of bracts on the boll weight in cotton and its genetic implications. R. A. SHERIFF, S. N. KADAPA and K. CHALAPATHY 332
Studies on Fe and Zn nutrition of rice in saline-alkali soil at different moisture regimes. A. N. PATHAK, K. N. TIWARI and R. L. UPADHYAY .. 335
Effect of different sources of sulphur and iron on flag-leaf composition and grain yield of rice on calcareous soils. P. B. PILLAI and H. G. SINGH .. 340
Evaluation of nitric phosphates as a source of fertilizer phosphorus to rice. H. S. HUNDAL and G. S. SEKHON 344
Comparative efficacy of some new insecticides on insect pests and their effect on the yield of cotton. DHAMO K. BUTANI, B. B. DAS and A. K. BASU .. 348
Estimation of natural cross-pollination in male-sterile upland cotton. K. N. GURURAJAN and K. SRINIVASAN 352
Growth behaviour in jute. B. C. SASMAL and R. K. MAITI 356
Migration of double bonds towards carboxyl in the rancidification of fats by atmospheric oxygen. SUSHIL KUMAR and A. R. S. KARTHA .. 364
Influence of management practices on the forage yield and quality of Sudangrass. TRIBHUWAN SINGH and S. D. RAI 372
Note on methods of land preparation and weed control in directly sown and transplanted rice. RAJENDRA PRASAD and V. SINGH 377
Note on the association of high aluminium content of root with the yellow-leaf disease of arecanut. A. R. MOHAPATRA and N. T. BHAT 380
Note on NPK effects on *Sehima* grassland. K. A. SHANKARNARAYAN, P. M. DABADGHAO, V. S. UPADHYAYA and P. RAI 383
Note on comparative efficiencies of ^{35}S fertilizer-labelling and soil-labelling techniques for determining the uptake of applied sulphur. N. S. DHILLON and G. DEV 385
Note on the fatty acyl group distribution patterns in fats from ripening nuts of arecanut and coconut at different stages of maturity and their significance in triglyceride formation mechanisms in plants. R. P. SINGH and A. R. S. KARTHA 389
Diallel analysis of fodder yield in pearl-millet. V. S. VERMA and S. Ramanujam .. 393
Effect of management practices on regrowth, biological yield and quality of oat grown for forage. G. D. DEO and S. D. RAI 397

PAGE

An evaluation of the negative-pressure technique for smut inoculation in sugarcane. KISHAN SINGH, T. R. BUDHRAJA and A. LAL 403

Carbohydrate make-up of some promising varieties of pea. RANGIL SINGH, K. S. NANDPURI, SHYAMA VADHERA and J. C. KUMAR 405

Effect of methods of irrigation on the yield and water use of different crops under different cropping systems. R. B. LAL, (the late) S. S. BAINS and S. RAY 410

Path-coefficient analysis of yield components in Indian mustard. M. D. SHIVAHARE, A. B. SINGH, Y. S. CHAUHAN and P. SINGH 422

Improvement of *Plantago ovata* Forsk. through tetraploidy and mutation breeding. S. P. MITAL, N. R. BHAGAT and M. L. MAHESHWARI .. 426

Application of discriminant function technique for making fertilizer recommendations with the help of soil-test values. T. P. ABRAHAM, P. NARAIN and L. K. GARG 430

Integrated approach for the control of *Thrips tabaci* Lind. R. C. SAXENA .. 434

Genotype × environment interactions for neurotoxic principle (BOAA) in in grass-pea. B. S. DAHIYA and L. M. JESWANI 437

Suitability of test-paper method for harvesting some advanced breeding lines of flue-cured tobacco. C. V. S. S. V. GOPALAKRISHNA, D. SUBBARAO and A. S. SASTRY 440

Note on the effect of different levels and methods of placement of fertilizers on seed yield of sunflower. N. R. SHANTHAMALLIAH, N. VENUGOPAL and N. M. PATIL 443

Note on the absorption spectra of pyridine hemochromogen of the leghemoglobin of *Sesbania cannabina* (Retz) Pers. R. K. THAKKAR and (the late) S. R. VYAS 445

Photoperiodicity and seed germination in rice. S. C. BHARGAVA 447

Evaluation of soil moisture in dry-farming areas in India by climatic water balance. K. S. RAMASASTRI and BH. V. RAMANAMURTY 452

Effect of flooding on some chemical and morphological characteristics of rice. C. S. WEERARATNA 461

Efficacy of certain fungicides in the control of primary seed infection in rice caused by *Helminthosporium oryzae* Breda de Haan. S. KANNAIYAN, A. VENKATA RAO, G. THANGAMANI and N. RAMADOSS 464

Fertilization value in inbred lines of radish and their hybrids. NARSINHA DAYAL 467

Effect of foliar application of four insecticides on the yield of cowpea affected by the bean butterfly, *Lycaena boetica* L. (Lepidoptera : Lycaenidae). AHMAD ASKARI and NASER ZARE 470

PATH-coefficient study in gram. C. L. L. GOWDA and B. P. PANDYA .. 473

Nature and extent of variability in glyceride structure in fats from different locations of the same seeds producing GS_2-nil C_{16}-C_{18} acid fats. R. P. SINGH and A. R. S. KARTHA 478

PAGE

Virulence studies on *Xanthomonas oryzae*. M. S. MOHIUDDIN and H. E. KAUFFMAN 482

Effect of photoperiod on growth and sex expression in some cucurbits. T. K. BOSE and M. S. GHOSH 487

Note on the effects of GA_3, IAA and kinetin on the germination of true dormant seeds of potato. MADHURI SHARON and HARI KISHORE 490

Note on logitudinal splitting of internodes in sugarcane varieties. V. S. BHIDE 494

Note on the toxicity of fluorine in ground waters of Bharatpur district of Rajasthan. VINAY SINGH and P. S. SINSINWAR 495

Note on the effect of submergence with saline water at different stages of growth of some rice varieties. A. R. BAL 497

Note on the relationship of some biochemical factors with the resistance in rice varieties to yellow rice-borer. N. PANDA, B. PRADHAN, A. P. SAMALO and P. S. PRAKASA RAO 499

Lindane residues in onion, following its granular application for the control of onion maggot. R. P. CHAWLA, B. S. JOIA and R. L. KALRA .. 503

Quantitative inheritance of some morphological characters in sorghum. J. V. GOUD, M. J. VASUDEVARAO and A. PUTTARUDRAPPA 506

Stress-day index for timing of irrigation for potato. S. B. HUKKERI, A. K. SHARMA, N. N. NIMBOLE and H. T. BASANTANI 515

Genetics of certain components of yield in linseed. M. RAI and K. DAS .. 524

Genetic diversity in cluster-bean. B. D. CHAUDHARY, P. N. BHAT and V. P. SINGH 530

Chemical induction of male sterility in black-gram. D. N. BHARADWAJ and D. K. DUBEY 535

Leaf infiltration as an index of the time of irrigation of wheat field. H. K. PANDE and E. RAVINDRANATH 539

Tentative identification of various components and fatty acids of ginger lipids. I. P. SINGH, B. S. JOGI, H. S. DUA and M. L. GUPTA 545

Infection of the castor semi-looper, *Achoea janata* L. (Noctuidae : Lepidoptera), by *Serratia marcescens* Bizio. R. GOVINDARAJAN, S. JAYARAJ AND K. NARAYANAN 550

Effect of multiple cropping and manurial levels on the yield and quality of flue-cured Virginia tobacco. S. VISWANADHAM, P. V. PRASADARAO and A. BHIMASASTRI 555

Note on the zinc nutrition of soybean plants in relation to deficiency symptoms and yield. O. C. KAPUR and M. S. GANGWAR 559

Note on the comparative resistance of some elite maize germplasms to shoot-fly in spring. R. N. CHAUDHARY and V. K. SHARMA 561

GUIDELINES TO AUTHORS

1. *The Indian Journal of Agricultural Sciences* is published every month. The following types of material will be considered for publication in the journal :

2.1. PAPERS ON ORIGINAL RESEARCH COMPLETED, not exceeding 3,500 words (approximately 10 typed pages), should be exclusive for the journal. They should present a connected picture of the investigation and should not be split up into parts.

2.2. SHORT RESEARCH NOTES (not more than 1,500 words or about 4 typed pages), which deal with (*a*) research results which are complete but do not warrant comprehensive treatment, and (*b*) descriptions of new material or improved techniques or equipment, with supporting data. Such notes require no headed sections.

2.3. CRITICAL RESEARCH REVIEWS pointing out lacunae in research and suggesting possible lines of future work.

2.4. Contributors are requested to ensure that the research papers or notes submitted for publication have a direct bearing on agricultural production or open up new grounds for productive research. Basic type of papers and notes which relate to investigations in a narrow specialized branch of a discipline, such as the taxonomy of plants, fungi or insects, may not form an appropriate material for this journal.

3.1. The TITLE should be short, specific and informative. It should be phrased to identify the content of the article and include the nature of the study and the technical approach, which is essential for key-word indexing and information retrieval.

3.2. In addition, a SHORT TITLE not exceeding 30 letters should be provided separately for running headlines.

3.3. The BYLINE should contain, in addition to the names and initials of the authors, the place where research was conducted. Change of address should be given as a footnote and correspondence address separately.

4. The ABSTRACT, written in complete sentences, should not have more than 150 words. It should contain a very brief account of the materials. methods, results, discussion and conclusions, so that the reader need not refer to the article except for details. It should not have references to literature, illustrations and tables.

5.1. The INTRODUCTORY part should be brief and limited to the statement of the problem or the aim of the experiment. The review of literature should be pertinent to the problem.

5.2. Relevant details should be given of the plant MATERIALS AND METHODS, including experimental design and the techniques employed. Where the methods are well known the citation of a standard work is sufficient. Mean results with the relevant standard errors should be presented rather than detailed data. The statistical methods used should be clearly stated.

5.3 The RESULTS AND DISCUSSION should preferably be combined to avoid repetition.

5.4.. The results should be supported by brief but adequate tables or graphic or pictorial material, wherever necessary. Self-explanatory tables should be typed on separate sheets and carry appropriate titles. The tabular matter should not exceed 20% of the text.

5.5. The data should be so arranged that the tables would fit in the normal lay-out of the page. All weights and measurements should be in matric units.

5.6. The discussion should relate to the limitations or advantages of the author's experiments in comparison with the work of others.

5.7. Line-drawings should be clearly drawn in black waterproof ink on smooth, tough paper. Photographs should be large, unmounted, glossy prints of good quality They should be clear and relevant to the subject. Line-drawings and photographs should have legends. which should also be supplied on a separate sheet. Tables and illustrations should not reproduce the same data.

6. A recent issue of the journal should be consulted for the method of citation of REFERENCES in the text as well as at the end of the articles. The bibliography should have the names of the authors, initials, year of publication, full title of the paper, name of the journal (abbreviated according to the *World List of Scientific Periodicals*, 4th edn. London), volume, preferably the issue within parentheses, and complete page-range (not merely the first page). Authors should ensure that all references in the text appear at the end of the paper and vice versa, and that names and dates at the two places correspond.

7. All articles are sent to referees for SCRUTINY and authors should meet criticism by improving the article.

8. Papers should be TYPE-WRITTEN, and double spaced throughout (including references and tables) on white, durable bond paper of size 22 cm × 28 cm, with a 4-cm margin at the top, bottom and left-band side. Articles (including illistrations) should be sent in duplicate, after a careful check-up of typographical errors.

9. Though no rigid rules are recommended for WRITING, authors are requested to cónsult *The Style Manual for Biological Journals* (2nd edn, American Institute of Biological Sciences, Washington DC).

10. PROOF-CORRECTION should be in ink, in the margin. All queries marked in the article should be answered. Proofs are supplied for a check-up of the correctness of type-setting and facts. Excessive alterations may be charged to the author. The proofs should be returned within 10 days.

11. Contributors will receive 24 copies of OFFPRINTS free (to be shared with the co-authors). They can order extra offprints when they return the proofs. The authors should pay in advance for these offprints and should ascertain the cost, mentioning the number of pages the article occupies in print.

THE INDIAN JOURNAL OF AGRICULTURAL SCIENCES

is indexed in the AGRINDEX, published by the FAO; the *Science Citation Index* and the *Current Contents* (Agriculture, Biology and Environmental Sciences), published by the Institute for Scientific Information, Philadelphia; the abstracting journals of the Commonwealth Agricultural Bureaux; as well as all the major abstracting services of the world.

Printed in India by S. N. Malhotra at the Kapoor Art Press, A38/3 Mayapuri Industrial Area, New Delhi 110 064, and published by S. S. Grewal, Under-Secretary, for the Indian Council of Agricultural Research, New Delhi 110 001.
